

Shorouk El-Behiery

Vulnerability Assessment | Penetration Testing | Network Security

Kafr ash Shaykh, Egypt | +20 010 2601 2863 | shoroukelbhiery@gmail.com | linkedin.com/in/shorouk-elbehiery

PROFESSIONAL SUMMARY

Cybersecurity student with a CCNA certification and hands-on training in ethical hacking and penetration testing through the DEPI program. Proficient in C++ and C# with practical experience using Kali Linux, Burp Suite, and Metasploit. Combines offensive security knowledge with a solid understanding of network architecture and infrastructure defense. Actively pursuing CEH and OSCP certifications with a long-term goal of leading red-team operations.

EDUCATION

Bachelor of Engineering (BE) - Electrical, Electronics, and Cybersecurity Engineering

Higher Institute of Engineering and Technology - Kafr Elsheikh, Egypt | Expected Graduation: July 2028

TECHNICAL SKILLS

Security Tools: Kali Linux, Burp Suite, Metasploit, Nmap, Wireshark

Networking: Routing & Switching, Network Architecture, Infrastructure Security, CCNA fundamentals, VLANs, Subnetting, Cisco Packet Tracer

Programming Languages: C++, C#

Operating Systems: Windows, Linux (Kali, Ubuntu)

Methodologies & Assessment: Vulnerability Assessment & Enumeration, Penetration Testing Methodologies, CTF Practices

CERTIFICATIONS & TRAINING

- Cisco Certified Network Associate (CCNA) – Routing & Switching, Network Security Fundamentals
- DEPI (Digital Egypt Pioneers Initiative) – Ethical Hacking, Vulnerability Assessment, and Penetration Testing
- Certified Ethical Hacker (CEH) – In Progress
- Offensive Security Certified Professional (OSCP) – In Progress

PRACTICAL EXPERIENCE & PROJECTS

Active Directory Penetration Testing Lab | Independent Project

- Built a virtual lab environment simulating enterprise network with Windows Server and Kali Linux.
- Performed reconnaissance, privilege escalation, and lateral movement using Metasploit and PowerShell scripts.
- Documented findings and remediation steps, simulating real-world red-team engagement.

Capture The Flag (CTF) Competitions | Practical Practice

- Actively participated in multiple CTF competitions focusing on web, network, and binary exploitation.
- Solved over 20+ challenges, demonstrating practical skills in vulnerability identification and exploitation.

CORE COMPETENCIES

- Analytical Thinking & Problem-Solving
- Research Aptitude & Continuous Learning
- Team Collaboration & Communication
- Attention to Detail

LANGUAGES

Arabic: Native | English: Professional Working Proficiency
